## Independent Accountants' Report on Financial Statements and Supplementary Information

Board of Trustees  
Colorado Surplus Asset Fund Trust  
Denver, Colorado

We have audited the accompanying statements of net assets of Colorado Surplus Asset Fund Trust (CSAFE) as of December 31, 2007 and 2006, and the related statements of operations and changes in net assets for the years then ended. These financial statements are the responsibility of CSAFE's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Colorado Surplus Asset Fund Trust as of December 31, 2007 and 2006, and the results of its operations and the changes in its net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying management's discussion and analysis as listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

## Management's Discussion and Analysis

December 31, 2007 and 2006

Colorado Surplus Asset Fund Trust (CSAFE) is a local government investment pool organized under Colorado Revised Statutes. CSAFE operates to provide daily liquidity for Colorado government entities. CSAFE participants include school districts, counties, municipalities and special districts. CSAFE follows the investment guidelines of the Colorado Revised Statutes, 24-75-601, as amended. In addition, CSAFE is rated AAAM by the Standard & Poor's Corporation (S&P). S&P has strict requirements that further govern the composition of investments, the average maturity of the investments and the types of investments. CSAFE is reviewed annually by the Colorado Division of Securities to ensure compliance with state laws. Moreover, CSAFE reports to S&P on a weekly basis and is subject to an annual rating review.

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to CSAFE's basic financial statements. In accordance with Governmental Accounting Standards Board (GASB) Statements, including GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, CSAFE presents a statement of net assets and a statement of changes in net assets prepared on the economic resources measurement focus and the accrual basis of accounting. Additionally, CSAFE presents a statement of operations in its basic statements. All applicable GASB pronouncements are applied in these reports.

The statement of net assets presents information on all of CSAFE's assets and liabilities, with the difference between the two reported as net assets applicable to shares outstanding.

The statement of changes in net assets presents information showing how CSAFE's net assets changed during the fiscal years presented. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The statement of operations reports a detail of the changes in net assets resulting from operations, or net investment income, that is included in the statements of changes in net assets.

The notes to the financial statements are required to be presented in accordance with accounting principles generally accepted in the United States of America and provide information about CSAFE's significant accounting policies used in the preparation of its basic financial statements as well as other explanatory information about amounts included in the basic financial statements. The notes to the financial statements should be read in connection with the basic financial statements.

### **Financial Highlights**

- CSAFE's net assets rose to \$1.494 billion for the year ended December 31, 2007, an increase of 39% over the prior year. Much of the increase in assets was the result of an inverted yield curve which increased the relative yield of CSAFE compared to longer term (1-2 year) bond maturities.

# Colorado Surplus Asset Fund Trust (CSAFE)

## Management's Discussion and Analysis

December 31, 2007 and 2006

- Until the fourth quarter of 2007, the composition of security investments remained relatively unchanged in 2007 compared to 2006. For the first nine months of 2007, CSAFE had approximately 75% of its assets invested in negotiated bank deposits. The interest rates on these deposits were tied to the 1-month LIBOR rate. Following a reduction in the Fed Funds rate on September 22, 2007, the 1-month LIBOR rate began to quickly decline. As a result, these investments were sold and other short-term liquidity instruments were purchased, primarily AAAm rated institutional money market funds.
- Net investment income rose 65% in fiscal year 2007, totaling \$70 million. In 2006 CSAFE recorded \$43 million of net investment income and in 2005 net investment income totaled \$25 million. The increase in investment income from 2005 through 2007 was primarily the result of a) rising market interest rates and b) increased asset levels. The net yield for an investment in CSAFE rose from 3.1% in 2005, to 4.8% in 2006 and to 5.1% in 2007.
- As was widely reported in 2007, a number of state run investment pools (not in Colorado) experienced distress due to the ownership of a class of asset backed commercial paper known as Structured Investment Vehicles (SIV). In November and December 2007, CSAFE disclosed that it did not have any exposure to SIVs. This disclosure was released to all Participants, the Colorado Securities Commissioner and Standard & Poor's Corporation.

### **CSAFE Asset Summary**

From 2005 to 2006 CSAFE recorded significant growth in net assets due to gains in the number of participants and an increase in the average account size. Year-end assets grew from \$762 million in 2005 to \$1.073 billion in 2006 and to \$1.494 billion in 2007. CSAFE investments are comprised primarily U.S. agency securities, highly rated commercial paper, bank deposits, repurchase agreements and AAAm rated money market funds.

By following the guidelines of S&P, CSAFE maintained a per share value of \$1.00 per share in 2005, 2006, and 2007.

### ***Currently Known Facts, Decisions or Conditions***

Because CSAFE operates in a fiduciary capacity on behalf of various Colorado government entities, changes in interest rates, changes in the number of participating governments and investment decisions of those Colorado government entities are the primary drivers of CSAFE's net assets and changes in net assets.

### ***Requests for Information***

This financial report is designed to provide a general overview of CSAFE's finances for all those with an interest in its finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Chris Blackwood, Portfolio Manager and Fund Administrator, 1600 Broadway, Suite 1100, Denver, Colorado 80202.

## Notes to Financial Statements

December 31, 2007 and 2006

### Note 1: Nature of Operations and Summary of Significant Accounting Policies

The Colorado Surplus Asset Fund Trust (CSAFE or the Trust) was established under authority of, and in conformity with, Part 7 of Article 75 of Title 24 of the Colorado Revised Statutes. CSAFE began operations on October 3, 1988. The Trust was formed by and for Colorado local governmental entities as a means of investing funds. CSAFE operates as a liquid money market fund with each share equal in value to \$1.00. The State of Colorado provides regulatory oversight over CSAFE and CSAFE is not registered with the U.S. Securities and Exchange Commission.

Following is a summary of significant accounting policies consistently applied by CSAFE in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America (US GAAP).

#### **Measurement Focus**

The accompanying financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Earnings on investments are recognized as revenue in the period in which they are earned and administrative costs are recognized as expense when incurred, regardless of the timing of related cash flows.

CSAFE prepares its financial statements as a special-purpose government in conformity with applicable pronouncements of the Governmental Accounting Standards Board (GASB). Pursuant to GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, CSAFE has elected to apply the provisions of all relevant pronouncements of the Financial Accounting Standards Board (FASB) that were issued on or before November 30, 1989, to the extent they do not conflict with or contradict GASB pronouncements.

#### **Custodian**

U.S. Bank Trust Department serves as custodian for CSAFE pursuant to a custody agreement. The custodian is responsible for the safekeeping of all securities and trust accounting. All securities owned by CSAFE are held by the Federal Reserve Bank in the account maintained for the U.S. Bank Trust Department.

#### **Security Valuation**

Securities, other than repurchase agreements, are reported at amortized cost. Repurchase agreements are reported at cost, which approximates amortized cost.

#### **Net Asset Valuation**

For the purpose of calculating CSAFE's net asset value per share, the securities held by CSAFE are valued weekly as follows: securities for which market quotations are readily available are valued at the most recent bid price or yield equivalent as obtained from one or more market makers for such securities, except that any such securities maturing within 60 days of the valuation date may be valued at cost, plus or minus any amortized discount or premium.

# Colorado Surplus Asset Fund Trust (CSAFE)

## Notes to Financial Statements

December 31, 2007 and 2006

The result of this calculation will be a per-share value, which is rounded to the nearest penny. Accordingly, the price at which portfolio shares are sold and redeemed will not reflect net realized or unrealized gains or losses on portfolio securities which amount to less than \$.005 per share.

CSAFE will endeavor to minimize the amount of such gains or losses. However, if net realized or unrealized gains or losses should exceed \$.005 per share, a portfolio's net asset value per share may change from \$1.00 or be maintained at \$1.00 per share by reducing on a pro rata basis each participant's shares in the event of losses, or by a distribution of additional shares in the event of gains.

There has been no involuntary participation (required by legal provisions) in the pool.

### ***Investment Income***

Investment income is recognized on an accrual basis. Distributions from net investment income are declared and payable on a daily basis. It is currently the policy of CSAFE not to invest in securities to realize capital gains.

### ***Income Taxes***

CSAFE was organized to provide pooling of public funds for local governmental entities in Colorado, which are exempt from federal and state income taxation. Accordingly, no provision for income or other taxes is required in the accompanying financial statements.

### ***Use of Estimates***

In preparing financial statements in conformity with US GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **Note 2: Cash Deposits and Investments**

### ***Custodial Credit Risk***

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

CSAFE's deposits are either covered by depository insurance or are collateralized under the Colorado Public Deposit Protection Act and are therefore not deemed to be exposed to custodial credit risk.

None of CSAFE's investments are deemed to be exposed to custodial credit risk.

# Colorado Surplus Asset Fund Trust (CSAFE)

## Notes to Financial Statements

December 31, 2007 and 2006

### **Concentration of Credit Risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

Investments issued or explicitly guaranteed by the U.S. government are excluded from this disclosure requirement. Commercial paper of \$59,349,722, \$59,092,172, \$58,731,751, \$29,568,787 and \$14,968,250 represent 20%, 20%, 20%, 10% and 5%, respectively, of CSAFE's total investments in securities as of December 31, 2007, and have maturities ranging from January 15, 2008 to August 6, 2008. Commercial paper of \$31,313,778 and \$19,519,700 represent 23% and 14%, respectively, of CSAFE's total investments in securities as of December 31, 2006, and have maturities ranging from April 12, 2007 to July 20, 2007.

### **Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. CSAFE's investments as of December 31, 2007, all mature within one year of that date.

CSAFE's cash and investments at December 31, 2007 and 2006, consisted of the following:

	<u>2007</u>	<u>2006</u>
Deposits	\$ 83,873,472	\$ 799,968,438
Money market funds	1,114,647,288	134,357,293
U.S. government agency securities	70,000,000	84,960,492
Commercial paper	<u>221,710,682</u>	<u>50,833,478</u>
Total	<u>\$ 1,490,231,442</u>	<u>\$ 1,070,119,701</u>

### **Deposits**

Colorado statutes require that local governments use eligible public depositories as defined by the Public Deposit Protection Act (PDPA) of 1989. Under the Act, the depository is required to pledge eligible collateral having a market value at all times equal to at least 102% of the aggregate public deposits held by the depository not insured by the Federal Deposit Insurance Corporation. Eligible collateral as defined by the Act primarily includes obligations of, or guarantees by, the U.S. government, the State of Colorado or any political subdivision thereof and obligations evidenced by notes secured by first lien mortgages or deeds of trust on real property.

CSAFE's cash deposits held in PDPA eligible public depositories at December 31, 2007 and 2006, had a carrying value of \$83,873,472 and \$799,968,438, respectively.

## Notes to Financial Statements

December 31, 2007 and 2006

CSAFE maintains a controlled disbursement account for the use of its participants. Participants can use the account as a demand deposit account and may make withdrawals in amounts up to their share account total.

CSAFE maintains an operating checking account that is not included in CSAFE's financial statements because it is an account that is not held in the trust. At December 31, 2007 and 2006, the account had a value of \$75,031 and \$45,579, respectively.

### *Investments in Securities*

Pursuant to the Trust investment policy, CSAFE may invest in U.S. government treasury securities, U.S. government agency securities, commercial paper and repurchase agreements collateralized with securities valued in excess of the repurchase agreement amount. The maximum maturity allowed for any investment is 397 days.

As discussed in Note 1, CSAFE's investments in securities are held by the Federal Reserve Bank in the account maintained for the custodian. The custodian's internal records identify the specific investments owned by CSAFE.

Pursuant to the Indenture of Trust, CSAFE may not borrow money or incur indebtedness with the intent to purchase investments, except as a temporary measure to facilitate withdrawal requests that would otherwise require selling investments before their maturity.

CSAFE's investments in institutional money market funds are rated AAAM by Standard & Poor's. These investments are made principally when the net rate of the money market fund exceeds the rate that can be obtained on a repurchase agreement. Money market management fees for the years ended December 31, 2007 and 2006, related to these money market funds ranged between .11% and .17% for each year. These fees are in addition to the fees paid by CSAFE participants to the trust's advisor.

## Notes to Financial Statements

December 31, 2007 and 2006

### Note 3: Investment Advisory and Administrative Fees

Davidson Fixed Income Management provides investment advisory services to CSAFE. Fees for such services are calculated daily and paid monthly, at a rate equal to .18% of the average daily net assets up to \$200 million, and .15% of the average daily net assets in excess of \$200 million. Fees paid in 2007 and 2006 totaled \$2,065,941 and \$1,345,981, respectively.

In addition, the Administrator accrued 0.04% of average daily net assets of the Trust in both 2007 and 2006, to meet administrative and custodial expenses.

### Note 4: Additional Information

Selected data for each share outstanding at December 31 for each of the last five years is as follows:

	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
Investment income	\$ 0.052760	\$ 0.050104	\$ 0.033136	\$ 0.015065	\$ 0.012740
Expenses	<u>0.001709</u>	<u>0.001847</u>	<u>0.001881</u>	<u>0.001876</u>	<u>0.001860</u>
Net investment income	<u>\$ 0.051051</u>	<u>\$ 0.048257</u>	<u>\$ 0.031255</u>	<u>\$ 0.013189</u>	<u>\$ 0.010880</u>

Additional data on the investment portfolio as of December 31, for each of the last five years is as below:

	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
Weighted-average maturity in days	29	27	38	46	57

The Trust's net average yield for 2007 and 2006 was 5.11% and 4.826%, respectively. For example, \$1,000 invested in the Trust on January 1, 2007, would have been worth \$1,051.05 at December 31, 2007 and \$1,000 invested on January 1, 2006 would have been worth \$1,048.26 at December 31, 2006. For 2007 and 2006, the unamortized portion of realized losses on investments is excluded from the above calculations, because it did not impact participant valuation calculations.
